The Miller Richmond Company Negotiates Sublease for Given Imaging, Inc.'s New Corporate Headquarters Facility

Atlanta, GA (December 7, 2005) – The Miller Richmond Company, an Atlanta-based commercial real estate brokerage firm, is pleased to announce that it has successfully negotiated a 24,919 square foot sublease on behalf of Given Imaging, Inc., a leading medical device company specializing in the diagnosis of gastrointestinal disorders. Given Imaging will be relocating to the 5th floor of Hampton Green, a 122,000 square foot Class “A” office building located at 3950 Shackleford Road in Duluth, GA. The space was formally occupied by Agere Systems, Inc..

Given Imaging is currently located at Oakbrook Technology Center, a Class “B” single story office/flex complex in Norcross. According to David J. Rubenstein of The Miller Richmond Company, “The management at Given Imaging was looking for an upgraded headquarters location convenient to its employees and clients. Not only did the Hampton Green sublease meet these objectives, but since the space came fully furnished and wired for voice and data, we were able to deliver a plug & play office to accommodate our client’s growth needs.

Steve Murray, Given Imaging Inc.’s Director of Operations explained that the company’s “facility requirements were very specific. We envisioned an efficient layout that could house corporate offices, sales and marketing, a dedicated computer lab area and adequate meeting and training space. Fortunately, Agere’s programmatic needs for the space were virtually identical to those of Given Imaging which made Hampton Green a great fit.”

Ed Cordell, Given Imaging, Inc.’s VP of Finance & CFO added, “In addition to the value of the existing improvements, wiring and furniture, as a sublease we were able to secure the space we needed for 20% below market. At a time when we are making significant investments throughout our company, we were excited expand our facilities without significantly increasing monthly overhead costs.”

David Rubenstein and Bogue Miller of The Miller Richmond Company represented Given Imaging in this sublease transaction. Pete Shelton of Colliers Cauble represented Agere Systems. Given Imaging will commence operations from its new location 2nd quarter 2006.

About The Miller Richmond Company

The Miller Richmond Company (www.millerrichmond.com) is a twenty-two year-old commercial real estate brokerage firm based in Atlanta, GA. The firm specializes exclusively in tenant representation for office, industrial, biotech and healthcare real estate transactions. The firm is a member of The Alliance of Tenant Representatives (ATR), a national real estate brokerage network of tenant representative specialists.

About Given Imaging

Given Imaging's (www.givenimaging.com) mission is to be the global leader in providing patient-friendly solutions for the gastrointestinal community. The company is already redefining the way gastrointestinal diagnosis is carried out. For GI physicians in clinics and hospitals, Given Imaging technology is now being recognized as the gold standard in detecting disease of the small intestine, resulting in more accurate diagnosis of a range of gastrointestinal disorders. For patients, Given Imaging's PillCam™ Capsule Endoscope offers the first effective, patient friendly gastrointestinal endoscope on the market that is now reimbursed for most of the U.S. reimbursed population. For the healthcare system and third party payers worldwide, Given Imaging offers a first-line, cost-effective, ambulatory diagnostic procedure that can save precious resources.

Given Imaging's flagship technology is the Given Diagnostic System, featuring the PillCam™ Capsule Endoscope. It is currently marketed in the United States and in 60 other countries for visualizing the small intestine and has benefited tens of thousands of patients worldwide. The company plans to leverage its technology as a diagnostic platform for other areas of the gastrointestinal tract including the esophagus, the stomach and the colon. A new PillCam™ Capsule Endoscope for esophageal examination is currently in clinical trials.

Given Imaging trades on the NASDAQ under the symbol GIVN.
